July 19, 2004

The Honorable William Delahunt
U.S. House of Representatives
1317 Longworth House Office Building
Washington, D.C. 20515-2110

Representative Delahunt:

Dear

I anticipated the administration's putting out feelers about postponing or cancelling the election in November. This is an assault on American democracy which must be stopped dead in its tracks. This is not about protecting American democracy or the American people. It is all about preserving the neocon's stranglehold on political power.

I strongly urge you to take WHATEVER steps are necessary to make it IMPOSSIBLE for the Bush administration to change the election process in any way.

Sincerely,
